

Throughout the year...

- Increase council membership to include members with a variety of background and technical expertise.
- Host Technology Connections Breakfasts with various topics.
- Provide technology-related educational seminars targeting different levels of technology users.
- Focus on promoting events, website and directory through various communication channels.
- Seek and build partnerships with other groups and organizations with similar interests and goals.
- Continue to expand the Michiana Technology Directory in partnership with NCI.
- Explore ways to utilize the website to benefit more businesses.

“Innovative manufacturers, dedicated educational facilities, and a host of cutting-edge technical support providers — the Michiana region has much to offer forward-thinking businesses and individuals. The Technology Council’s effort to link these groups, build awareness and facilitate partnerships gives our area a competitive advantage.”

Lori Masapollo, COMAST

“The Technology Council allows me to interact with other organizations to stay on top of technology trends in the area to better serve our clients.”

Jason Proctor, Single Path

“Working with the Technology Council has opened my eyes as to the high level of technological sophistication present in the Michiana region.”

Thomas Mauch, Baker & Daniels

Technology Council

Linking innovative creators, users & providers of technology.

The Technology Council is establishing itself as a regionally recognized resource for technology information, news and events. The Council's primary goal is to increase the awareness of technology companies in the Michiana region. Other goals of the Council include staying informed of technology efforts in Michiana and exploring ways to bring educational research centers together with Michiana businesses.

Mission

To build the Michiana region as a globally recognized center for technology innovation.

Technology Directory

The Michiana Technology Directory is an online directory featuring companies that employ unique technologies, methodologies and equipment and lead the effort to insure the Michiana region remains a technology center for years to come.

The directory was developed to help build a network of high technology companies in the region while also becoming the basis of a Virtual Technology Park.

To learn more about the directory or enroll your business, visit www.michianatech.org

Events & Training

The Technology Council hosts several networking events and training seminars. Topics include:

- Power Quality & Surge Suppression
- Nanotechnology
- BioTown, USA
- Innovations in Technology
- Broadband in Elkhart County
- Information Technology
